HOUSTON-BASED GULF COAST ENERGY NOW SUPPORTS YOUR WHOLESALE FUEL NEEDS www.gulfcoastenergy.com

Houston, Texas – **(December 3, 2019)** – Specializing in custom blends with on-the-spot blending capabilities, Houston-based [Gulf Coast Energy](http://www.gulfcoastenergy.com), a supplier of refined petroleum products, announced today they are currently supplying biodiesel, off-road diesel and on-road diesel at their North Houston terminal, which is located near Houston Intercontinental Airport.

Gulf Coast Energy uses state-of-the-art technology to provide an effective fuel distribution system that relies on speed, precision and safety. With three multi-product vehicle loading lanes that provide short-wait times for drivers, the company’s computer-controlled fuel blending technique uses fail-safe controls to ensure fuel products are consistently delivered to specification.

“We are extremely pleased to offer Texas and neighboring states an array of refined products at our fuel terminal in Houston,” said Patrick Mulvany, president of Gulf Coast Energy. “Gulf Coast Energy is under new ownership and management and we hope to become the premier distributor in refined petroleum products in this area.”

Hours of operation are Monday – Friday, 7am to 10pm. For more information, go to: www.gulfcoastenergy.com or call 281-821-2225.

###

Using state-of-the-art technology, [Gulf Coast Energy](http://www.gulfcoastenergy.com) safely supplies swift and reliable access to refined petroleum products that fuel your business – biodiesel, off-road and on-road diesel – from their North Houston terminal.
